Maths	MM Week 29 Monday This week we are focusing on weight . Today we'll do some practical work*	MM Week 29 Tuesday Planet Maths p.161 A & B Converting kg and g to decimals and vice versa	MM Week 29 Wednesday Planet Maths p.162 A Adding different weights	MM Week 29 Thursday Planet Maths p163 A Multiplying & dividing weights	Week 29 Friday Review Do you have the ingredients to make a cake/buns/meal? Use the scales to weigh out the correct measurements you need. Enjoy!
SESE	“The corona virus pandemic is the worst global crisis since World War 2” – UN Secretary General Guterres. This week our focus is History . Using the handout I gave you, Unlocking History and internet access, research WW2 and record your findings in your SESE copy. Some useful headings are <i>Build Up to the war/Main People and Countries/Weaponry/Life During the War/Outcome</i>				
Music	For the time that is in it we are going to listen to Avicii ‘Wake Me Up’ https://youtu.be/lcrbM1l_Bol . Look up the lyrics and write them into your copy. Sing, sing, sing! You may respond imaginatively by drawing a picture that comes to mind when you listen and/or by making up some dance moves. Try editing the lyrics to suit your own isolation situation at home. Share your singing/dancing/art/lyrics with your family and friends. This is also available as <i>Gaeilge</i> from the Coláiste Lurgan Youtube channel https://youtu.be/1A6_HssHW8 Bainigí taitneamh as!				

*Take 10 different sized/shaped food items from the cupboard and line them up. Estimate which you think is heaviest and lightest. Pick them up and compare. Remember, a bag of sugar is 1kg. **There are 1000 grams in a kilogram.** Make a chart in your sum copy with the headings *Estimate and Actual Weight*. Write down your guesses. Now check the weight (g or kg) on the packaging and write these in. Were you close?

During the week have fun with the kitchen or bathroom scales. Play a game with a sibling or parent to guess as accurately as possible the weight of different things around the house. A book, a fork, the dog? ☺

The Planet Maths operations are similar to those you would have met in 5th class. Try your best. It is okay to keep practising adding and subtracting on the calculator if that's what you were doing in class. There are nice problem solving questions in the chapter too that I know some of you will be well able for. Challenge yourself and work away at them. Make up your own word problems and see if anyone can solve them.
