9.0 Cyberbullying

This type of bullying is increasingly common and is continuously evolving. It is bullying carried out through the use of information and communication technologies such as text, social media, e-mail, messaging, apps, gaming sites, chat-rooms and other online technologies. Being the target of inappropriate or hurtful messages is the most common form of online bullying. As cyberbullying uses technology to perpetrate bullying behaviour and does not require face to face contact, cyberbullying can occur at any time (day or night). Many forms of bullying can be facilitated through cyber-bullying. For example, a target may be sent homophobic text messages or pictures may be posted with negative comments about a persons sexuality, appearance etc.

Access to technology means that cyberbullying can happen around the clock and the students home may not even be a safe haven from such bullying. Students are increasingly communicating in ways that are often unknown to adults and free from supervision. The nature of these technologies means digital content can be shared and seen by a very wide audience almost instantly and is almost impossible to delete permanently. While cyberbullying often takes place at home and at night, the impact can also be felt in school.

In accordance with the Anti-Bullying Procedures for Schools, St. Patrick's N.S. Ballylinan considers that a once-off offensive or hurtful public message, image or statement on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour.

When using the internet students, parents and staff are expected to treat others with respect at all times.

Engaging in online activities with the intention to harm, harass, or embarrass another student or member of staff is an unacceptable and absolutely prohibited behaviour, with serious consequences and sanctions for those involved.

Measures are taken by St. Patrick's N.S. Ballylinan to ensure that staff and students are aware that bullying is defined as unwanted negative behaviour, verbal, psychological or physical, conducted by an individual or group against another person (or persons) and which is repeated over time. This definition includes cyberbullying even when it happens outside the school or at night. In addition the Department of Education Anti-Bullying Procedures, 2013 defines cyberbullying as “placing a once-off offensive or hurtful public message, image or statement on a social network site or another public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour”.

The prevention of cyberbullying is an integral part of the anti-bullying policy of our school.
